LOCATION: Salter's Lode Lock Desilting Works

DETAILS:

We are pleased to report that on Friday 07 June 2024 the Environment Agency completed clearing the silt blocking the entrance to Salter's Lode Lock on the Tidal Great Ouse. This is following the completion of the desilting works at Denver Lock on Friday 31 May 2024.

This is subject to the MLC's operational checks of Salter's Lode Lock being successful over the weekend for further information please refer to the Middle Level Commissioners website.

For further information please contact us at the Environment Agency on 03708 506506 between 9am and 5pm Monday to Friday and ask for the Great Ouse Waterways team.
